DESIGNER JEWELRY

CATALOGUE 2008

JOHN ATENCIO®

"After designing jewelry for over 35 years, I am as excited today as ever about my art form. Being true to my art and unique look, I continue to be passionate about creating modern jewelry.

The new collections and designs I've included are only a small part of new and existing designs that create a special John Atencio synergy. These designs bring wonderful opportunities to the faithful collectors as well as anyone new to acquiring my art. As collecting is the key, I know and design for those adding to their collections and seeking individual expression.

So whether starting , or adding to an existing John Atencio collection, it is my pleasure to continue to create inspired, distinctive, wearable works of jewelry art."

DISTINCTIVE, MODERN JEWELRY,
FOR DISCRIMINATING INDIVIDUALS."
